

Creating a Donation Page on iDonate

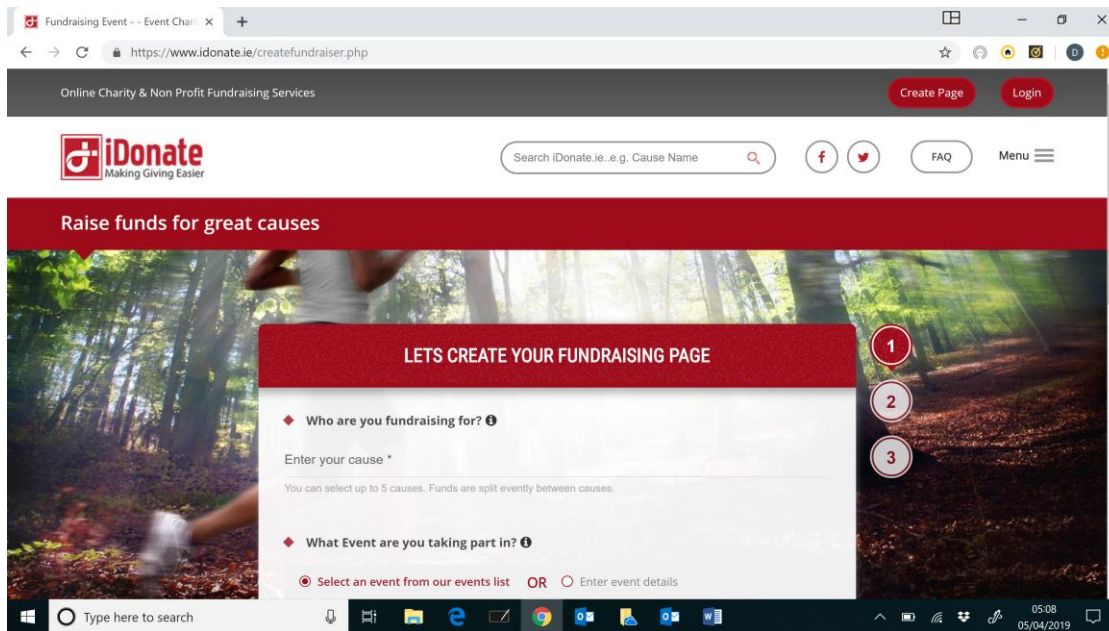

Open up the iDonate homepage at www.idonate.ie

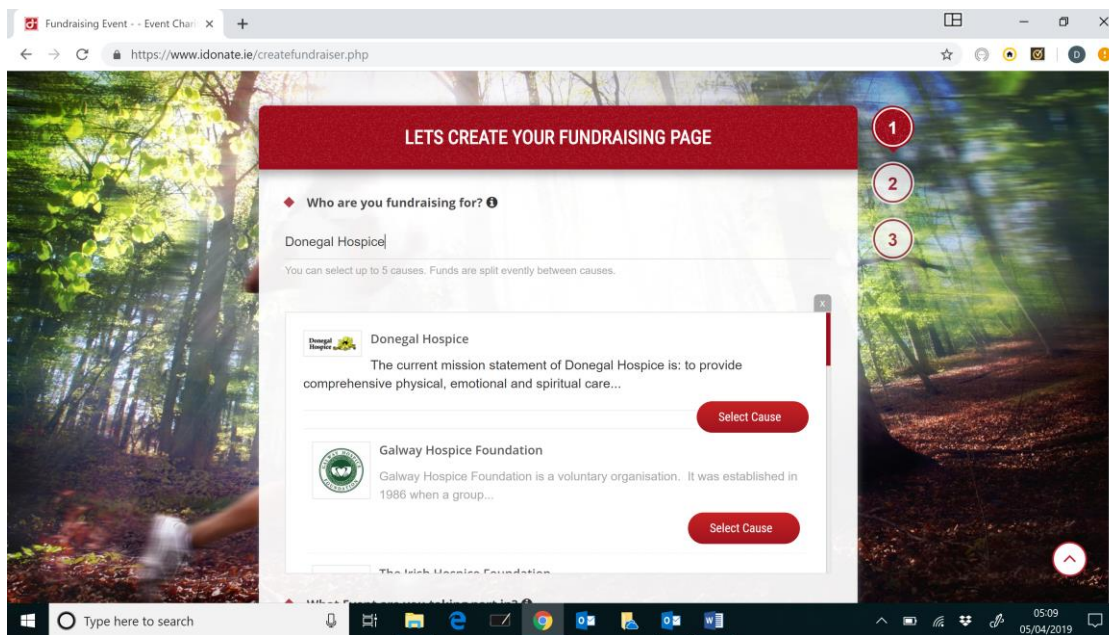

On the opening page, click the “Create Page” button

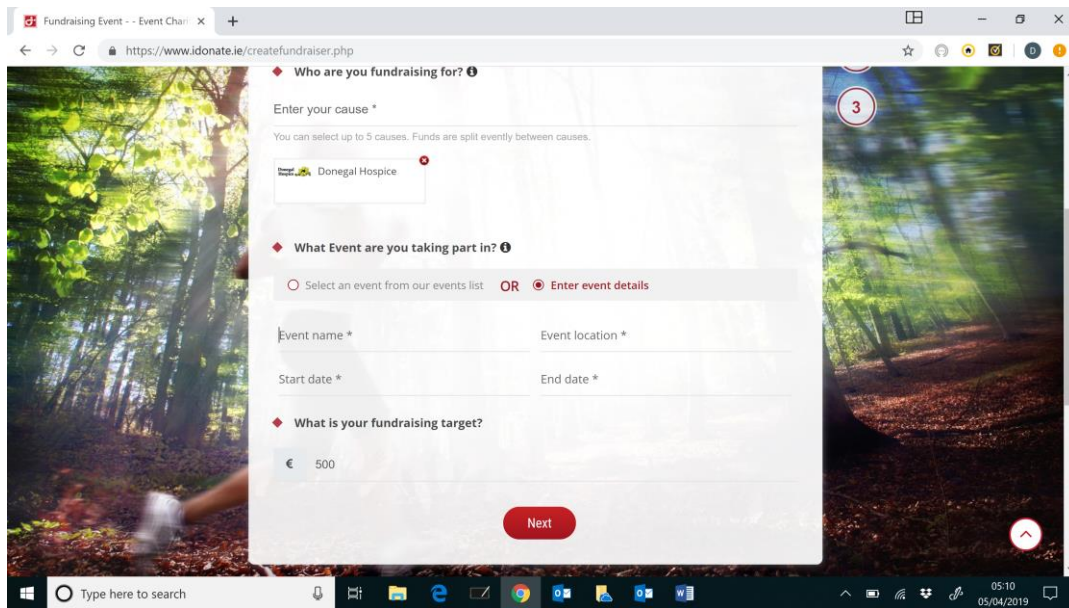

On the next page, click the “Get Started” button

In the “Enter your cause” field type in Donegal Hospice

This will bring up a list of possible options. Obviously you select “Donegal Hospice”. If you want to donate to more than one cause, you can select up to 4 additional ones.

You can then fill in all the additional details of the event, complete the next page with contact details and then that is all done.

If you then email the link to your iDonate page to thedonegalhospice@gmail.com we can include it on our Facebook page and our website.
